# Abhinav Agrawal

abhinavagrawal1995@gmail.com | abhinavagrawal.in

#### **QUALIFICATIONS**

Current M.Sc. IN COMPUTER SCIENCE from Northeastern University (1st Year)
2013 - 2017 B.TECH. IN INFORMATION TECHNOLOGY from Manipal Institute of Technology

#### TECHNICAL SKILLS

WEB Python, Java, HTML/ CSS/ JS, PHP, SQL, Angular 5, NodeJS, C++ OS Ubuntu. Windows. RHEL

#### **PROJECTS**

### CODETRIP

### Adaptive Road Trip Planner

2016

A web application designed to suggest the perfect route between the user's source and destination cities. The suggestions are based on a scoring algorithm on city factors designed using Azure ML and ScikitLearn's Model Evaluation API. The project made it to the top 6 teams in the AngelHack 2016 Hackathon organised at MIT, Manipal.

### BuzzMiner

## A tool to suggest best locations for a mobile launch

2016

BuzzMiner is a web-application which crawls all tweets about a given mobile phone, and performs sentiment analysis using Naive Bayes algorithm. The algorithm then provides suggestions for the model's launch locations in descending order of probability of success. <code>github.com/abhinavagrawaln995/buzzminer</code>

#### THE BOOK HUB

### An online Library Tool

2014-2017

An online repository of e-books and a facilitator for purchase/lending physical copies within the college campus. The website had an average of 250 visits per day across 20 countries. Also recruitment and managed a team of 15 developers, content-writers and graphic designers <code>github.com/abhinavagrawal1995/tbh</code>

#### PLACEMENT PORTAL

### Official Placement Portal used at Manipal Institute of Technology

2016-2017

Developed a PHP based portal to be used for all Placement processes of the college. Also installed a dedicated Linux server to host this portal on the campus intranet. It is used by 3000+ users each year.

## WORK EXPERIENCE

#### AUG '17 - APR '18

#### Analyst at BlackRock Inc., Gurgaon

Assisted in revamping the existing monolithic architecture to a container-ready architecture and developing web-applications using Angular 5 on the same.

Created Python scripts to automate internal processes.

Developed Spring based APIs for the web-application used by Institutional Clients to view different types of reports about their assets at BlackRock.

#### JAN - JUL '17

#### Intern at BlackRock Inc., Gurgaon

Fixed all Information Security issues found across Java, JS, Sybase and Apache layers during external Penetration Tests of client facing web-applications.

## lun - lul '16

# Intern at Siemens India, Gurgaon

GitHub - qithub.com/abhinavaqrawal1995/JT-file-parser

Developed a JAVA parser for JT open file format (used for 3D modelling).

Further extended the tool using Blender Python API to enable lossless import of the file into Blender, an open-source 3D rendering software.

## ADDITIONAL INFO

LANGUAGES KNOWN

English, Hindi, Bengali

HOBBIES

Playing Guitar, Reading, Web Dev
